- V Saunders explained during the previous BOE meeting, J Jenks made a claim about Logan City's sewer rate charges. R Eck provided the Council with a summary of Logan City's sewer rate charges. Logan City's charges are based on the same principals as Providence City's. V Saunders felt three people in an apartment would use the sewer the same as three people in a single family home.
- R Liechty agreed with V Saunders. He felt honoring the request would open the door for every resident in the City to request a reduction.
- R Liechty also expressed concern about the area Deer Creek is using as staging area. V Keeslar explained the property owner, Sky Properties, has given permission for use.
