Comments:

- S Bankhead clarified that the letter Diane mentioned was dated January 9, 2020 from Dallas Nichols who was the development manager of Visionary Homes. They had a geotechnical report prepared by a Cache Corp on June 12, 2019 that addressed the high water table that said a land drain would be an acceptable mitigation strategy to allow the construction of homes with basements. S Bankhead read from the letter.
- S Bankhead reminded J Williamson to have the property corners staked so when the footings are inspected they can make sure they are in the right spot and the setbacks are honored.
