57 would review their comments and suggestions and update the draft.

- 61 • Commission discussed the possible locations the plaque could be placed.
- 62 • Howard Christenson updates the Commission on the plaque that was recently removed by the

70 acquiring the old post office.

- 71
- 72 • Howard Christenson called item 3 and reviewed with the Commission what they had discussed last time.
- 73 • Gordon Allred indicated that he had talked with the owner about the old post office and saw the current  
74 state of the building. Commented that the post office would need a lot of work to refurbish it and that it  
75 would be very difficult to move. Indicated to the Commission that one of the biggest concerns for the  
76 owner was making sure it was placed or moved to a property that was owned by the city and that it  
77 would be there for a long time to come. Wes Bitters confirmed that these issues were also brought up the  
78 last time he talked with the owner as well.
- 79 • Commission discussed the issues of safety and upkeep that would have to go into the old post office.  
80 Commission discussed the finances it would take to restore and move the old post office. Parties  
81 discussed potential locations that the old post office could be placed. Commented that it would need to  
82 be in a secure place where it wouldn't be vandalized or where kids would jump or play on it.
- 83 • Commission discussed possible state funding for the project and the requirements they would need to  
84 meet to get that funding. Parties continued discussions on where it could be placed. Parties commented  
85 on possible locations such as Jays Well, by the Old Rock Church or even here on the city office grounds.
- 86 • Skarlet Bankhead commented on possibly going to city council and requesting an historical preservation  
87 master plan to layout guidelines and places for projects like these.
- 88 • Parties commented on the old tithing house location and how to move forward with the post office.

90 owns.
